

**THE BUSINESS CHALLENGE :-**

*Training is a significant investment for all businesses. It is important to keep your training simple and keep it coming, particularly your safety training!*

To minimise your costs and maximise the positive impact training will have on your organisation, you need to ensure that your training is dynamic, easy to access, effectively delivered, simply managed and creates minimal disruption to your daily business activities.

**CLEVAware is THE ANSWER :-**

**\$1599** single site price

**The SMARTsafe® Solution:-**

CLEVAware provides business with a simple, efficient, effective and flexible Computer Based Training (CBT) tool for the management, delivery and assessment of unlimited, up-to-date, dynamic staff training. It will provide you with a one-stop training centre, consolidating your employee training process and ensuring that you minimise your costs, while gaining the maximum benefit from your training investment!

**J**oin the growing number of organisations who have discovered that the SMARTsafe® CLEVAware solution increases the effectiveness of their staff training while saving them time and money. CLEVAware is one of the simplest, most effective, flexible and affordable Computer Based Training (CBT) tools currently available.

**BENEFITS**

- Your training program is consolidated, streamlined and simplified, saving your business time and money. This is because CLEVAware is a one-stop training centre that allows you to flexibly create, maintain, deliver, assess, monitor and report upon your in-house training courses, at any time, via your Intranet.
- Like all SMARTsafe® products the competitive edge of CLEVAware is its simplicity and flexibility. Other CBT software tends to be prescriptive and complex, requiring unique skills and significant training to be fully utilised.
- CLEVAware allows you to create your online training courses in any format that you like. This is a unique feature to CLEVAware and means that you can develop your training courses in MS Word, PowerPoint, Flash, HTML, Acrobat or any other software that you are familiar with. This makes the process of course development quick and simple, as you do not need to learn new skills or how to operate new software.

## One-Stop Training Center for the Delivery and Monitoring of Your In-House Training

### more BENEFITS....

- CLEVAware's administrative function is simple to use and will **save management time**, further minimising training costs. From the one location, your Training Manager can quickly and easily add training courses, develop assessments, enroll students, monitor student progress and report upon training statistics. This is another reason that CLEVAware is known as a one-stop Training Centre.
- An easy to use Assessment Wizard allows you to **quickly develop effective online assessments** for each course.
- **Automatic marking of assessments** gives you and your student's instant results and the Certificate **Production Facility** allows students to print off their achievement certificates immediately. These features provide students with instant rewards for their efforts, increasing **the effectiveness of your training**.

- You can organize your training programs into courses and modules, ensuring that employees only complete the training that is appropriate to their individual needs.
- CBT **eliminates your need to have a trainer deliver all your in-house training**. This will save you money and give your trainer more time to focus on other key responsibilities. Although it can be used for all training delivery, CBT is not designed to eliminate all classroom style training, toolbox talks etc, rather it is best utilised to support these training mediums, making your training programs more comprehensive and therefore more effective.

- You will decrease the cost of implementing your training programme by **minimising disruption to your workplace** resulting from its implementation. CLEVAware will enable your staff to access their individual training, have their knowledge tested, instantly see their results and receive their training certificates of achievement, wherever they are, at any time, via your intranet. This means that they will be able to manage their time effectively, minimising disrupting to productivity.
