

Product Name	ZAFTI-Aware®
Version Number	V3.0

Hardware Requirements

An IBM compatible PC with hardware that meets or exceeds these minimum requirements:

- Processor: Pentium 200 MHz or faster
- RAM: 32 Mb minimum, 64Mb recommended
- CD-ROM: 2 x CD-ROM or faster
- Free disk space on the installation drive: 450Mb
- Video: SVGA 800x 600, 256 colours

Software Requirements

The software requirements to run ZAFTI-Aware® are:

- Operating System: Windows® NT / 2000 / XP Home / XP Professional
- Browser: Internet Explorer 5.5 or later
- Office Products: MS-Word® 2000 / XP
- MS-PowerPoint® 2000 / XP

Installation

The installation disks are set up to autorun. Some computers are not set up to take advantage of this feature. If it does not autorun, go to the CD Rom Drive in Windows Explorer and double click on ZAFTI-Aware.exe.

Customisation

ZAFTI-Aware® can be customised to suit the owner's specific requirements.

The following table shows the ZAFTI-Aware® components and the software needed to make any changes:

- Safety Talk text : MS-Word®
- Safety Talk overheads and handouts : MS-PowerPoint®
- Controlling program : Any HTML editor
